

FOREIGN TRAVEL

Foreign travel is not allowed on funding from the Agricultural Research Foundation's Competitive Grant program.

Foreign travel is allowed on commission, council, association, and board funding, if it appears in the budget of the original, approved proposal. If not stated in original proposal, foreign travel is allowed if the researcher obtains written permission from the funding agency stating that foreign travel is allowed.

Foreign travel is allowed on unrestricted gift funds.

All personal travel reimbursements for OSU faculty or OSU-affiliated faculty must be processed through the OSU FA/FG/FX Index system according to FIS 509.

Travel expenses for foreign visitors on official OSU business can often be paid using ARF gift funds or contract funds if provision for such is listed in the grant budget.
